

agreement with it as are all the segments of interest on the floor here.

SENATOR NORE: Fine. Now these, for instance engineering here, it will be integrated with the University of Omaha so you'll have just one engineering college and not proliferated into two.

SENATOR GOODRICH: It has a undergraduate engineering at UN-O and the undergraduate engineering at Lincoln and graduate engineering at Lincoln, just exactly, there's no change whatsoever being made in engineering anywhere in the University. It's all under the direction of Dean Hannah who is here in Lincoln.

SENATOR NORE: But you established a separate college of Architecture?

SENATOR GOODRICH: Yes.

SENATOR NORE: Fine.

PRESIDENT: Senator Kelly, then Senator Barnett, then Senator Clark.

SENATOR KELLY: Mr. President, members of the body, as a member of the Education Committee we changed some of the requests that the University had but I believe in this amendment there are requests that the University did not have. Senator Goodrich has signified that all factions of this body are in favor of this amendment. I'm not a part of a faction but I am a section of this Legislature and I don't understand it so I don't know how I could be in favor of it. I'd like to request that we hold this over for a day to read these amendments.

PRESIDENT: Senator Goodrich, do you care to respond?

SENATOR GOODRICH: If I can get a microphone going. Senator Kelly, you misinterpreted what I said. I said those that had expressed the interest at the time that this bill was up at the head of General File at that time. Now first of all, we cannot lay it over because today is the last day or virtually the last day. It would be very rare that we advance anything off tomorrow. Because this is supposed to be the last day we advance bills off General File. I have a copy of this, you're sure welcome to read it, but one, the only thing that you and I differ in in what you say is the fact that all factions of this floor, for example, that had expressed an interest at that time were brought into it. All the University, for example, Varner, Nevell Hannah, even Anne Campbell were all brought into it and they all agreed to it. This is what they wanted.

PRESIDENT: While you're looking at that, excuse me, Senator Kelly.

SENATOR KELLY: I have an interest in it and I do want to agree with it but I want to know what it is, Senator, that's the proposition.

PRESIDENT: All right, why don't you take a look at it then and we'll move on to Senator Barnett and then come back to you if you want to speak again, Senator Kelly. Senator Barnett. We have the Goodrich amendment before us.

SENATOR BARNETT: Mr. President, I wonder if Senator Goodrich would yield or somebody else might have to answer. I think Glenn could though.

PRESIDENT: Senator Goodrich, yield to a question?

SENATOR GOODRICH: Yes.

SENATOR BARNETT: Senator Goodrich, I've got to have one thing straight in my mind right now and I don't know if you're familiar
